

## **A Message from our Chief Executive Officer, Alan Cohn & Chief Medical Officer, Dr. Anoop Raman**

As COVID-19, or coronavirus, continues to affect our communities, we want you to know that the well-being of our members and staff is our top priority. At AbsoluteCARE, our teams are continuing to support our members and help them navigate through this difficult time.

We encourage you to keep your appointments with us: in person, video or phone — we will be here to care for you. Please know that additional coronavirus screening will take place upon arrival. We are taking every precaution to make sure our members, along with our staff, always remain safe.

If you do not have an appointment, but need to come see or speak with your provider, a member of your care team, or refill your medications, please call before coming into the office; we will need to do additional screening before you come in for a visit.

AbsoluteCARE will remain open during normal business hours and will continue to have a provider on-call 24/7.

Remember, we are here for you Absolutely Anytime!
